FEATURES AND FUNCTIONS

Software Compatible

Use Epson's Label Editor software to create labels for your entire workplace. Print images, bar and QR codes, tables and logos. Batch print by importing spreadsheets.

Automatic Half-Cut

The LW-Z5000PX comes with replaceable automatic cutters for optimal efficiency. Choose between half and full-cut for your desired project. Half-cut slices the label, but not the backing, and full-cut cuts both. Customize for YOUR needs!

Save 30% or more with Bulk Supplies*

Print on continuous rolls up to 147' long (47m) or die cut rolls with up to 2700 labels. Keep your bulk batches neat and organized with the automatic winder (optional).

SAVE on supplies - LW-Z5000PX has an incredibly LOW Total Cost of Ownership in comparison to competitors

*compared to standard length cartridges.

Save Time

LW-Z5000PX offers a quick, one-step loading process by using cartridges instead of separate ribbon and tape rolls. Just drop and click and the machine is ready to print!

Optimal Connectivity

Connect to the LW-Z5000PX using a USB cable directly to your computer, or choose between Wireless and Wired LAN for multiple users either with Label Editor software, or the Epson iLabel and Epson Datacom apps.
